

Let's have a crowd coding initiative

M Haidar Hanif

#JLP3

What's a crowd coding?

Imagine these 3 words...

People | Technology | Collaboration

How crowd?

Well, not as crowd as this

Just as crowd as this

Why have a
crowd coding?

Learning by doing and teaching with a
strong collaboration to help people

let's have a collaboration

Start with **5-15 minutes** a day

Consistency

All good?

A collage of colorful paper scraps (yellow, light blue, green, pink) and a green cutting mat with a ruler and a hand using a marker on an orange paper.

Ideas

Principles

Roles

Ideas

Principles

Roles

Brainstorm and filter our ideas.

Ideas

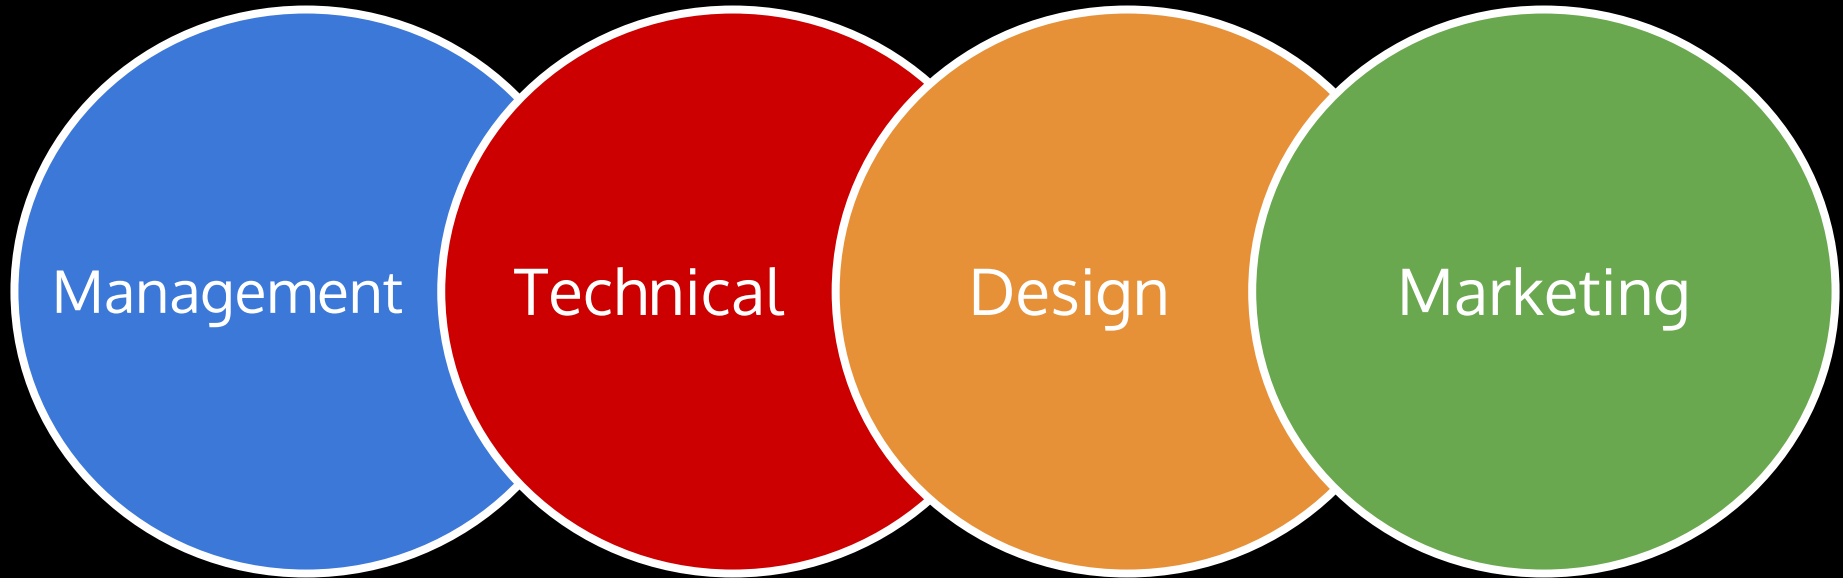

Principles

Roles

A close-up photograph of a Go board. In the foreground, a yellow Go stone and a red Go stone are placed on the board. The board has a grid of intersections with circular markings. In the background, other Go stones (green and purple) are visible, but they are out of focus. A semi-transparent dark banner is overlaid across the middle of the image, containing white text.

Ground rules or basic principle to do software development.

Those are things like...

Ideas

Principles

Roles

Assign roles on who's doing
what particular task.

Let's start the discussion!

(Now we are also have a networking as well)

Tell us about:

- 1. Yourself**
- 2. Your idea/feedback**
- 3. Your offer**

This discussion (bit.ly/jlp-slide-cci)
was presented by M Haidar Hanif (mhaidarhanif.com)
at JLP Meetup (bit.ly/jlp-meetup)
in August 2015.
